24/7 Monitoring- Indoor & Outdoor

Smart sensors provide real-time data and analysis, helping you optimize your settings for your business needs.

Pre-Filter

The first layer of the process targets large particles, including dust, pollen, insects, and animal hair.

HEPA Ray-Filter™

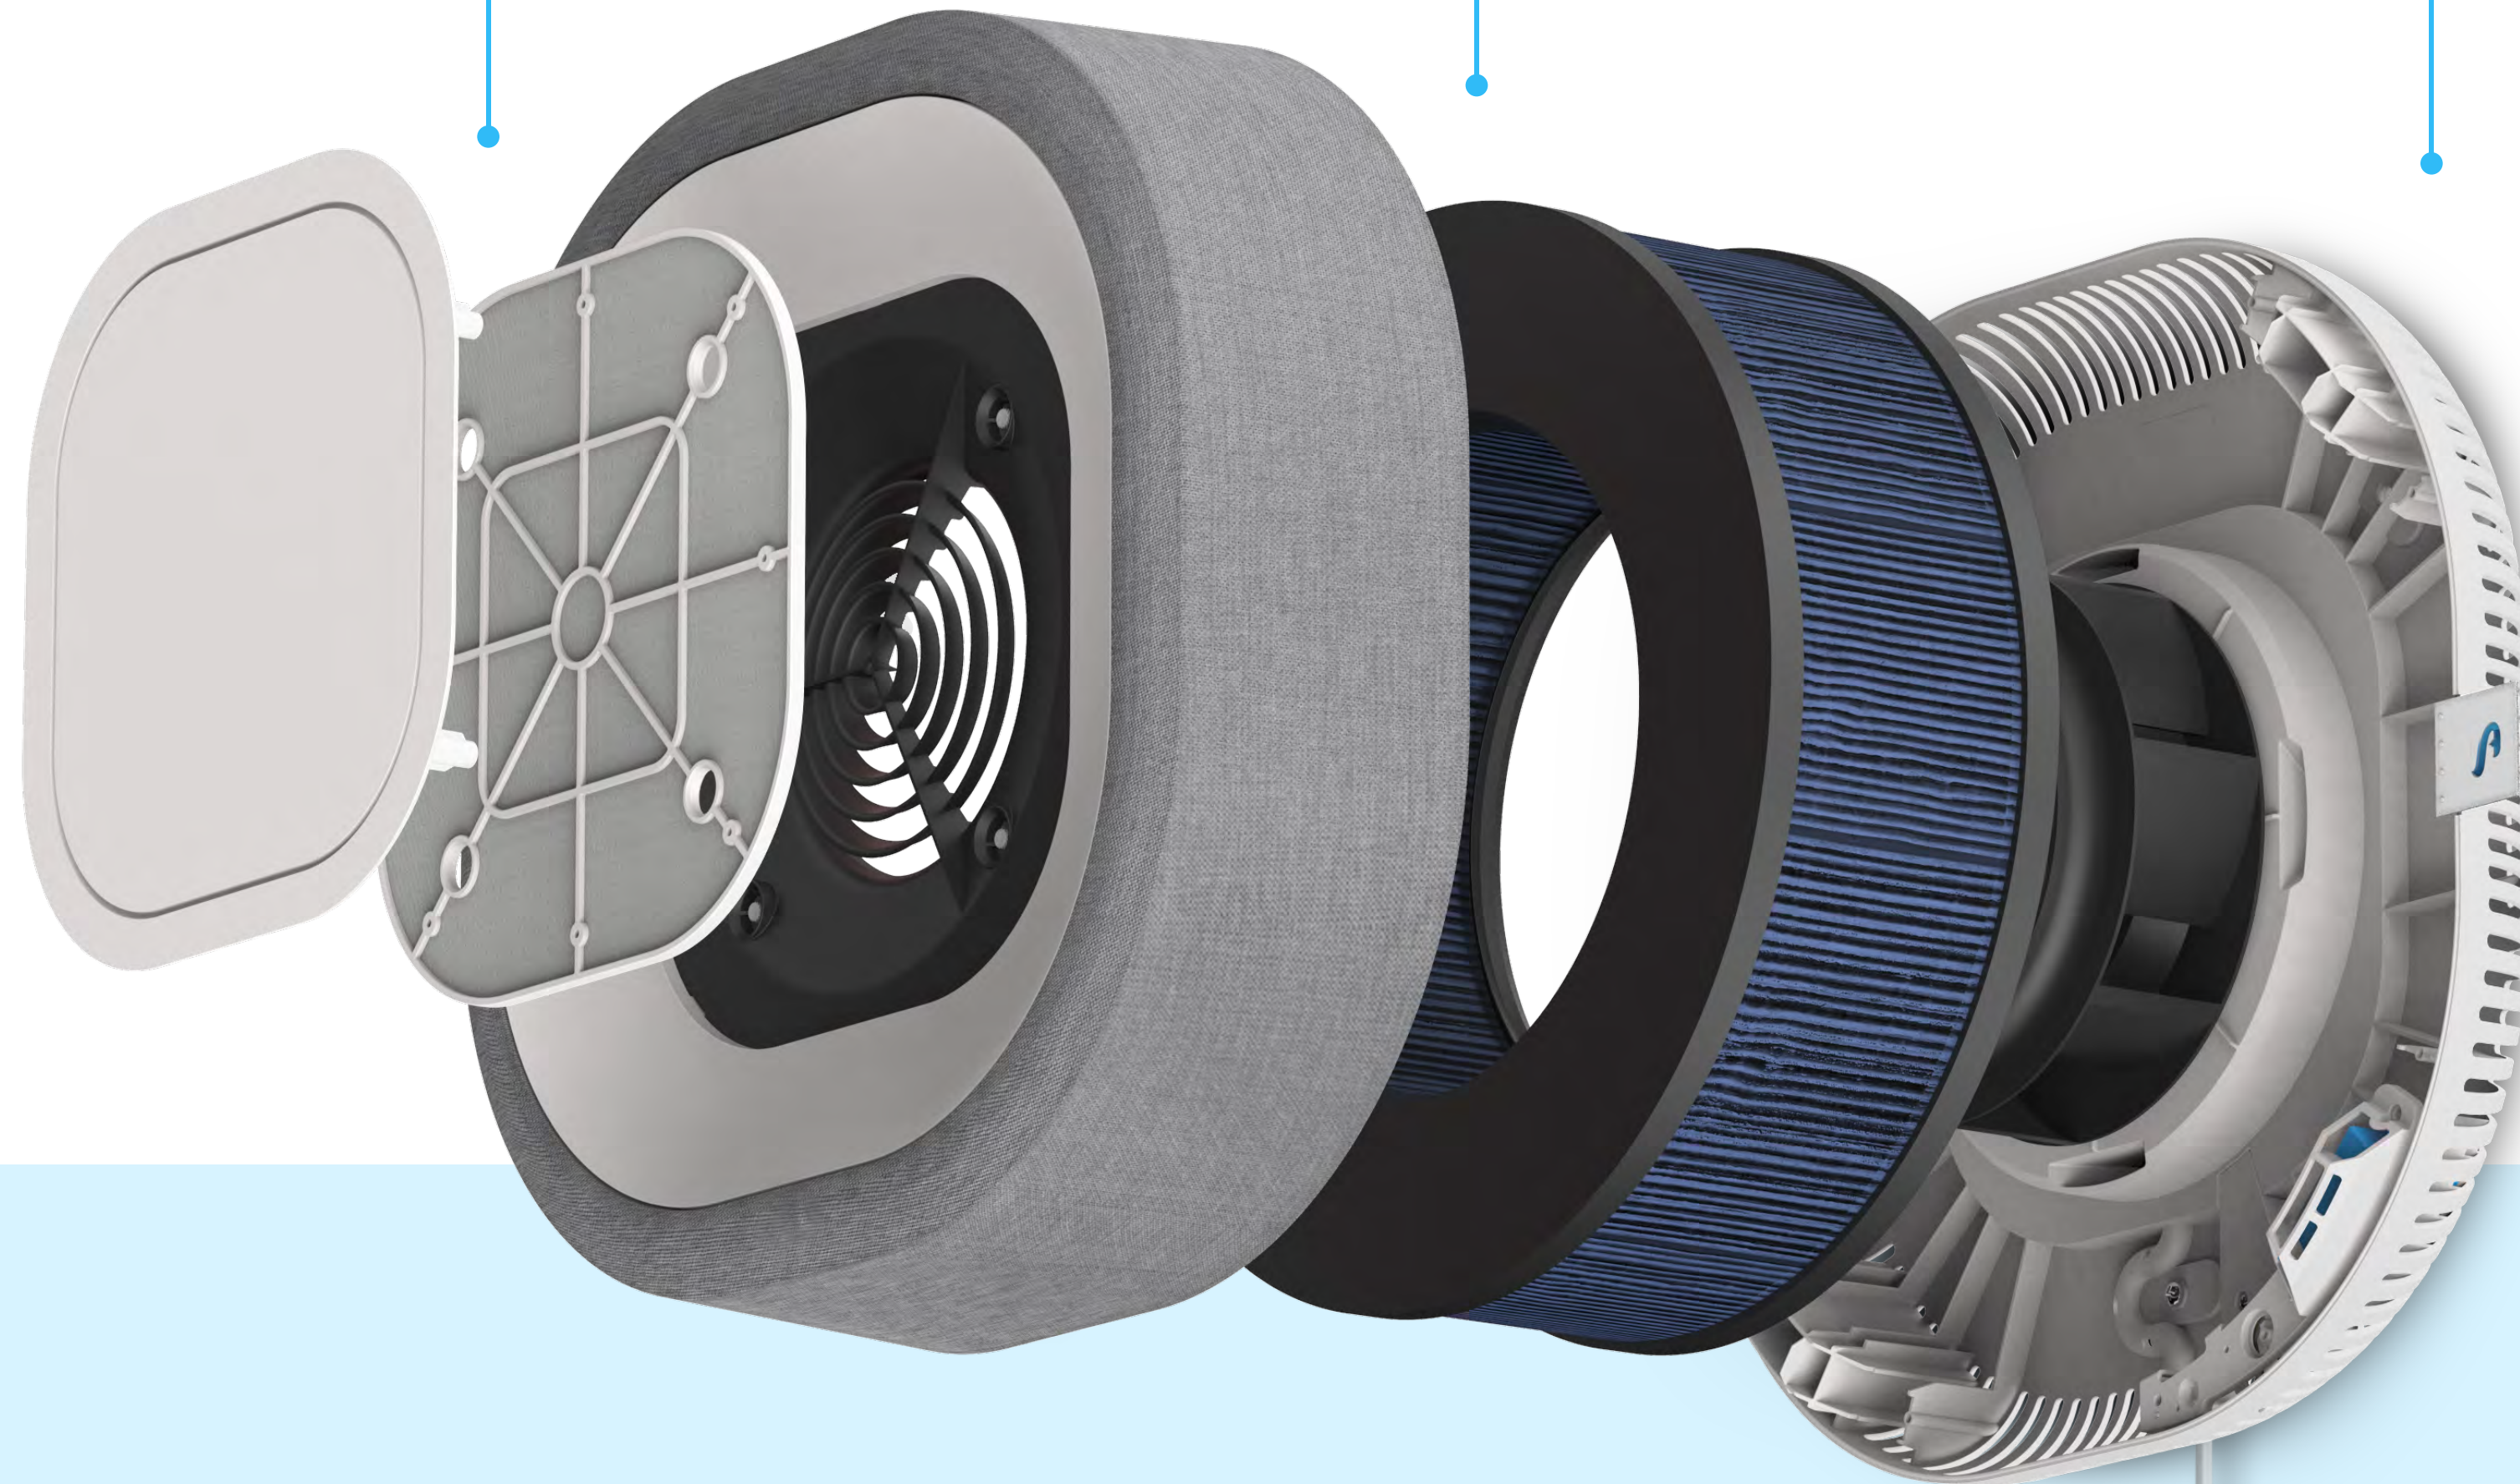

Our patented HEPA Ray Filter consists of 3 unique antibacterial layers that target fine particles (PM 2.5 and 10), germs, odors, bacteria, viruses, fungus, and mold spores.

UVC LEDs

Exterminates bacteria, viruses, and parasites by destroying their integral membrane protein.

The Sterionizer™

Creates pure air, just like in nature, by releasing positive and negative ions. It freshens up your indoor space and removes any remaining harmful pollutants.

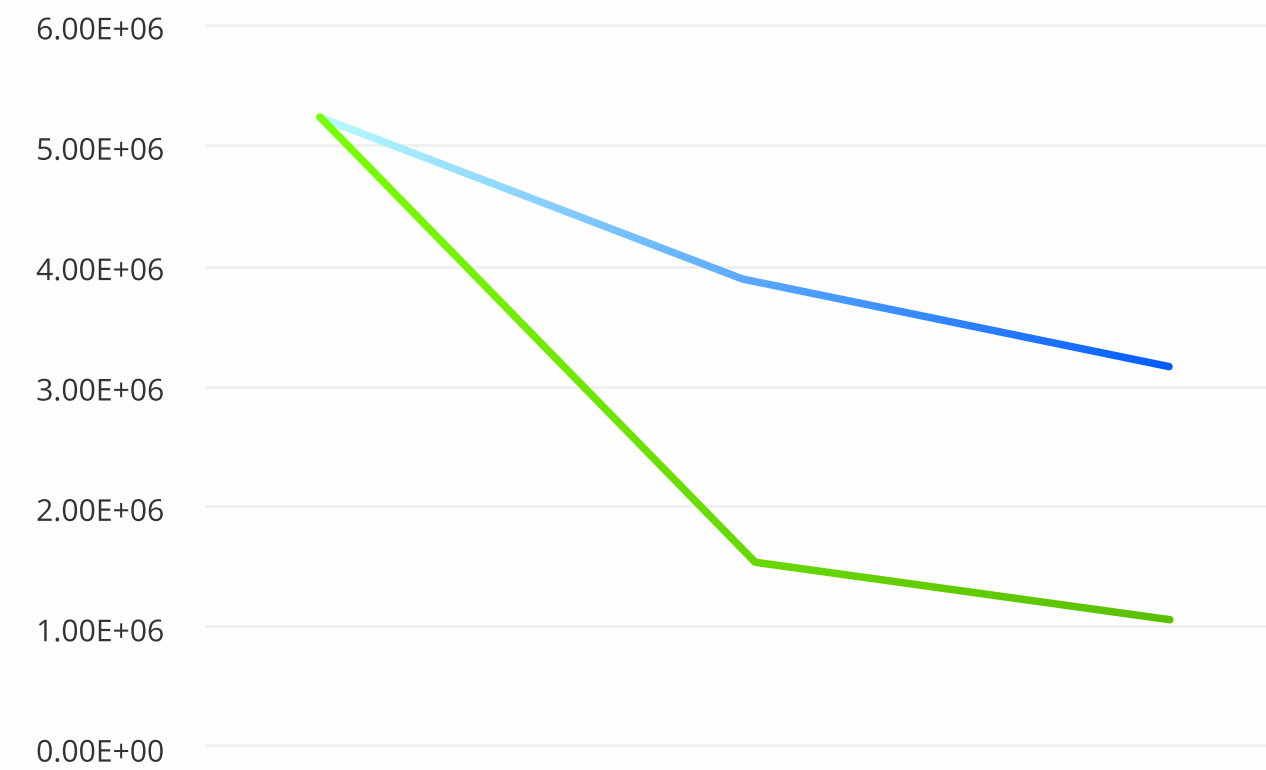

The Future of Air Quality Research

Aura Air Breathe easy

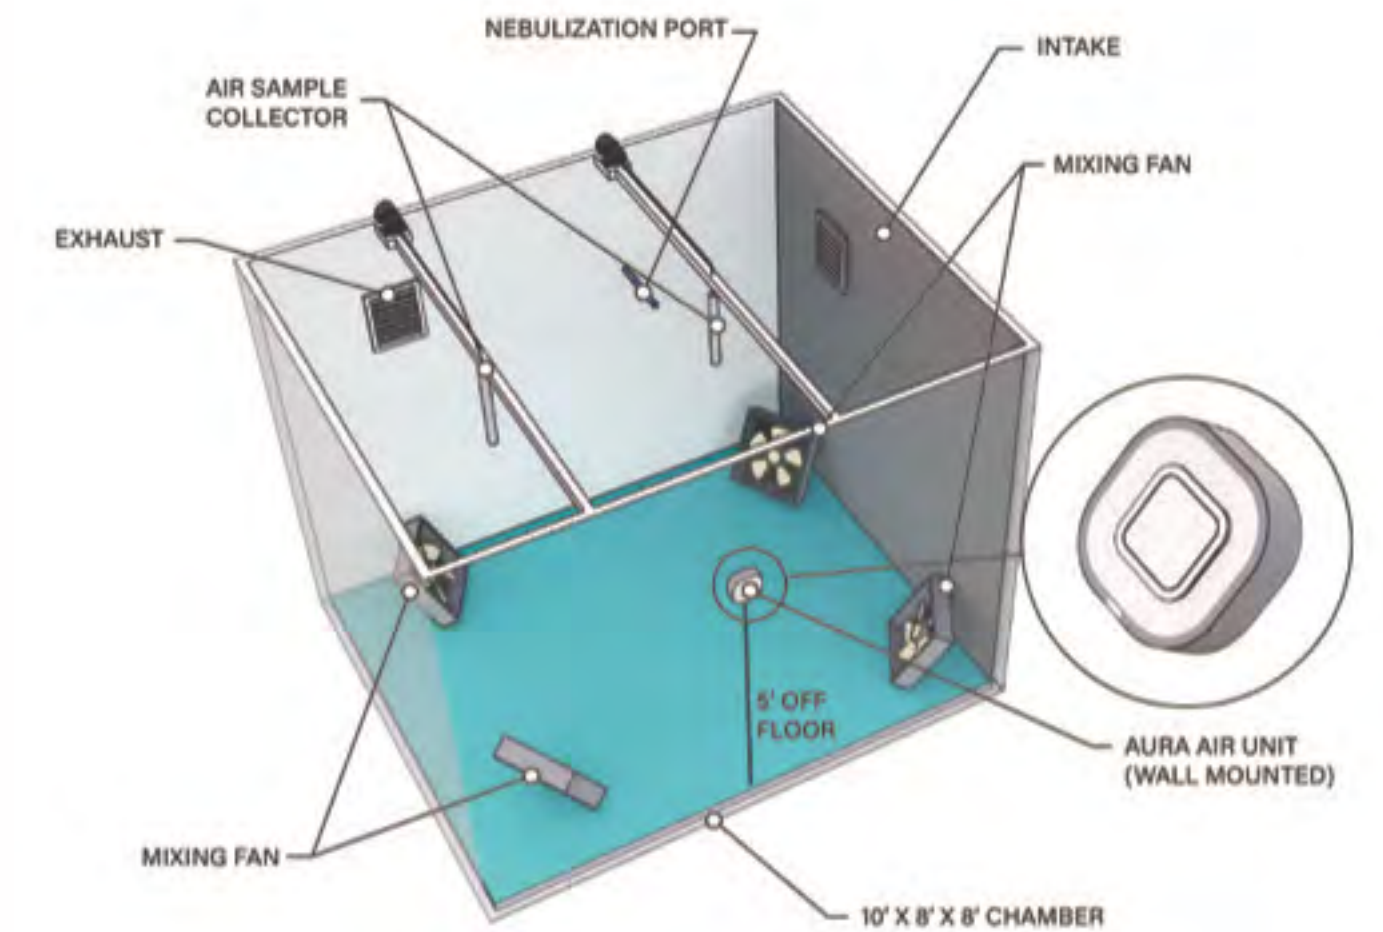

99.998% of Sars-CoV-2 Was Eliminated in 60 Minutes

Aura Air Neutralization of Aerosolized SARAS-CoV-2

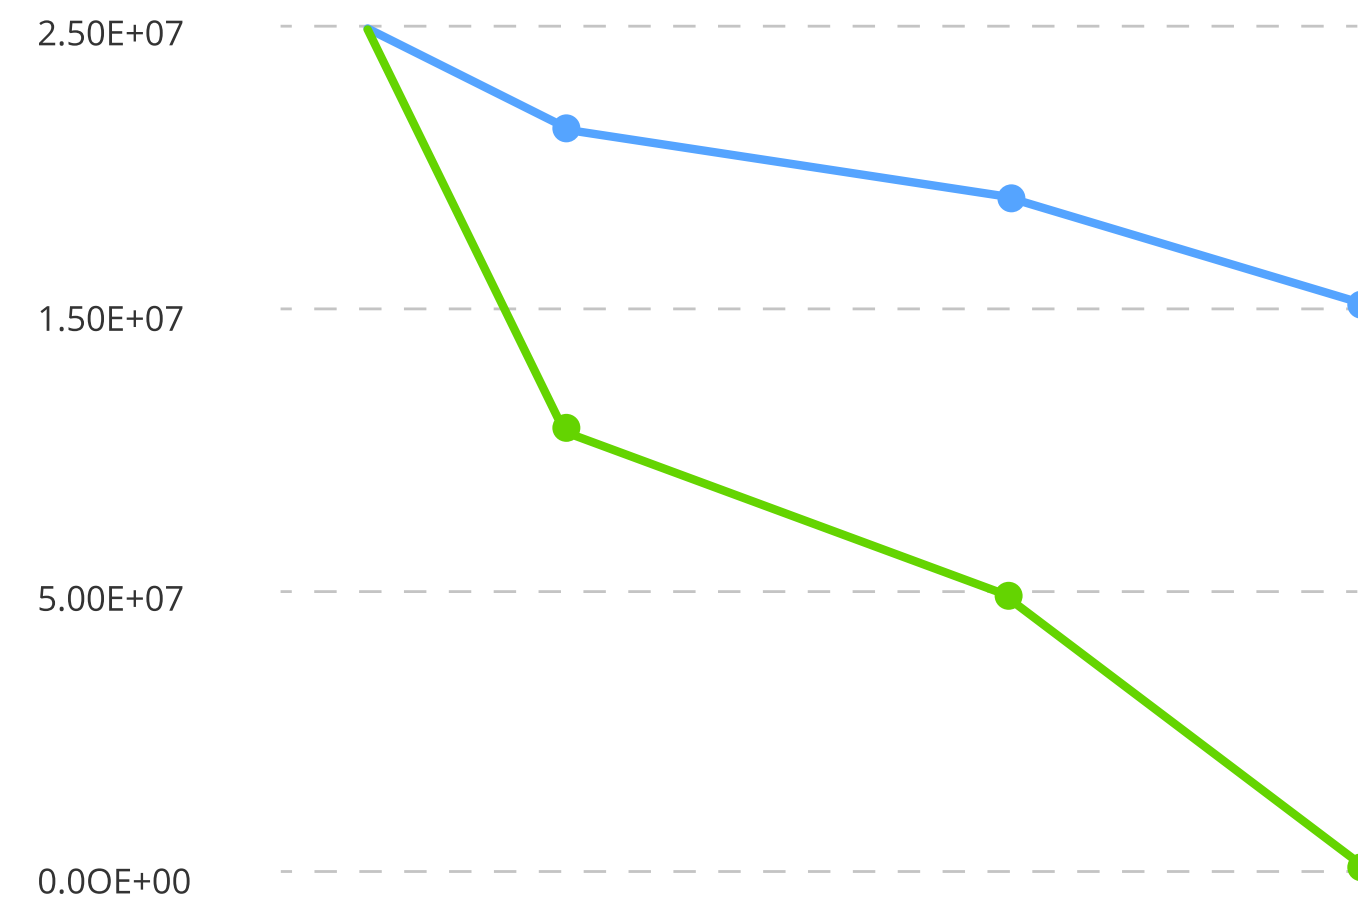

| | 30 Min | 60 Min |
|--------------|----------|---------------|
| ● Control | 3.67E+06 | 2.39E+06 |
| %Reduction | 30.320 | 54.667 |
| ● Experiment | 6.65E+05 | 1.20E+02 |
| %Reduction | 87.371 | 99.998 |

Room layout for control and experimental trial

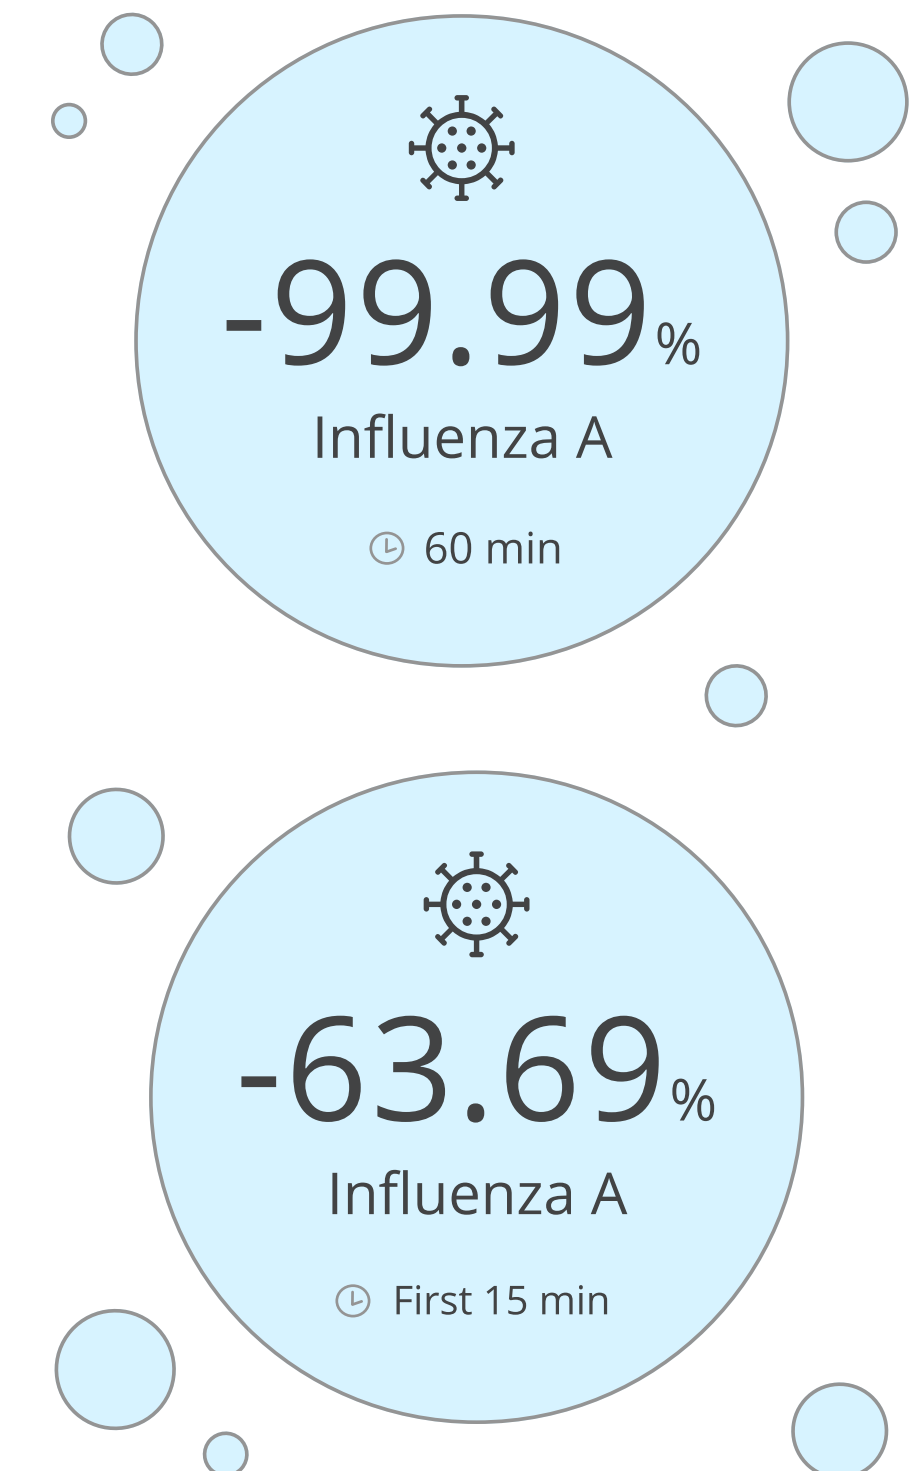

Aura Air eliminates 99.998% of Influenza A

Aura Air Reduction of Aerosolized Influenza A

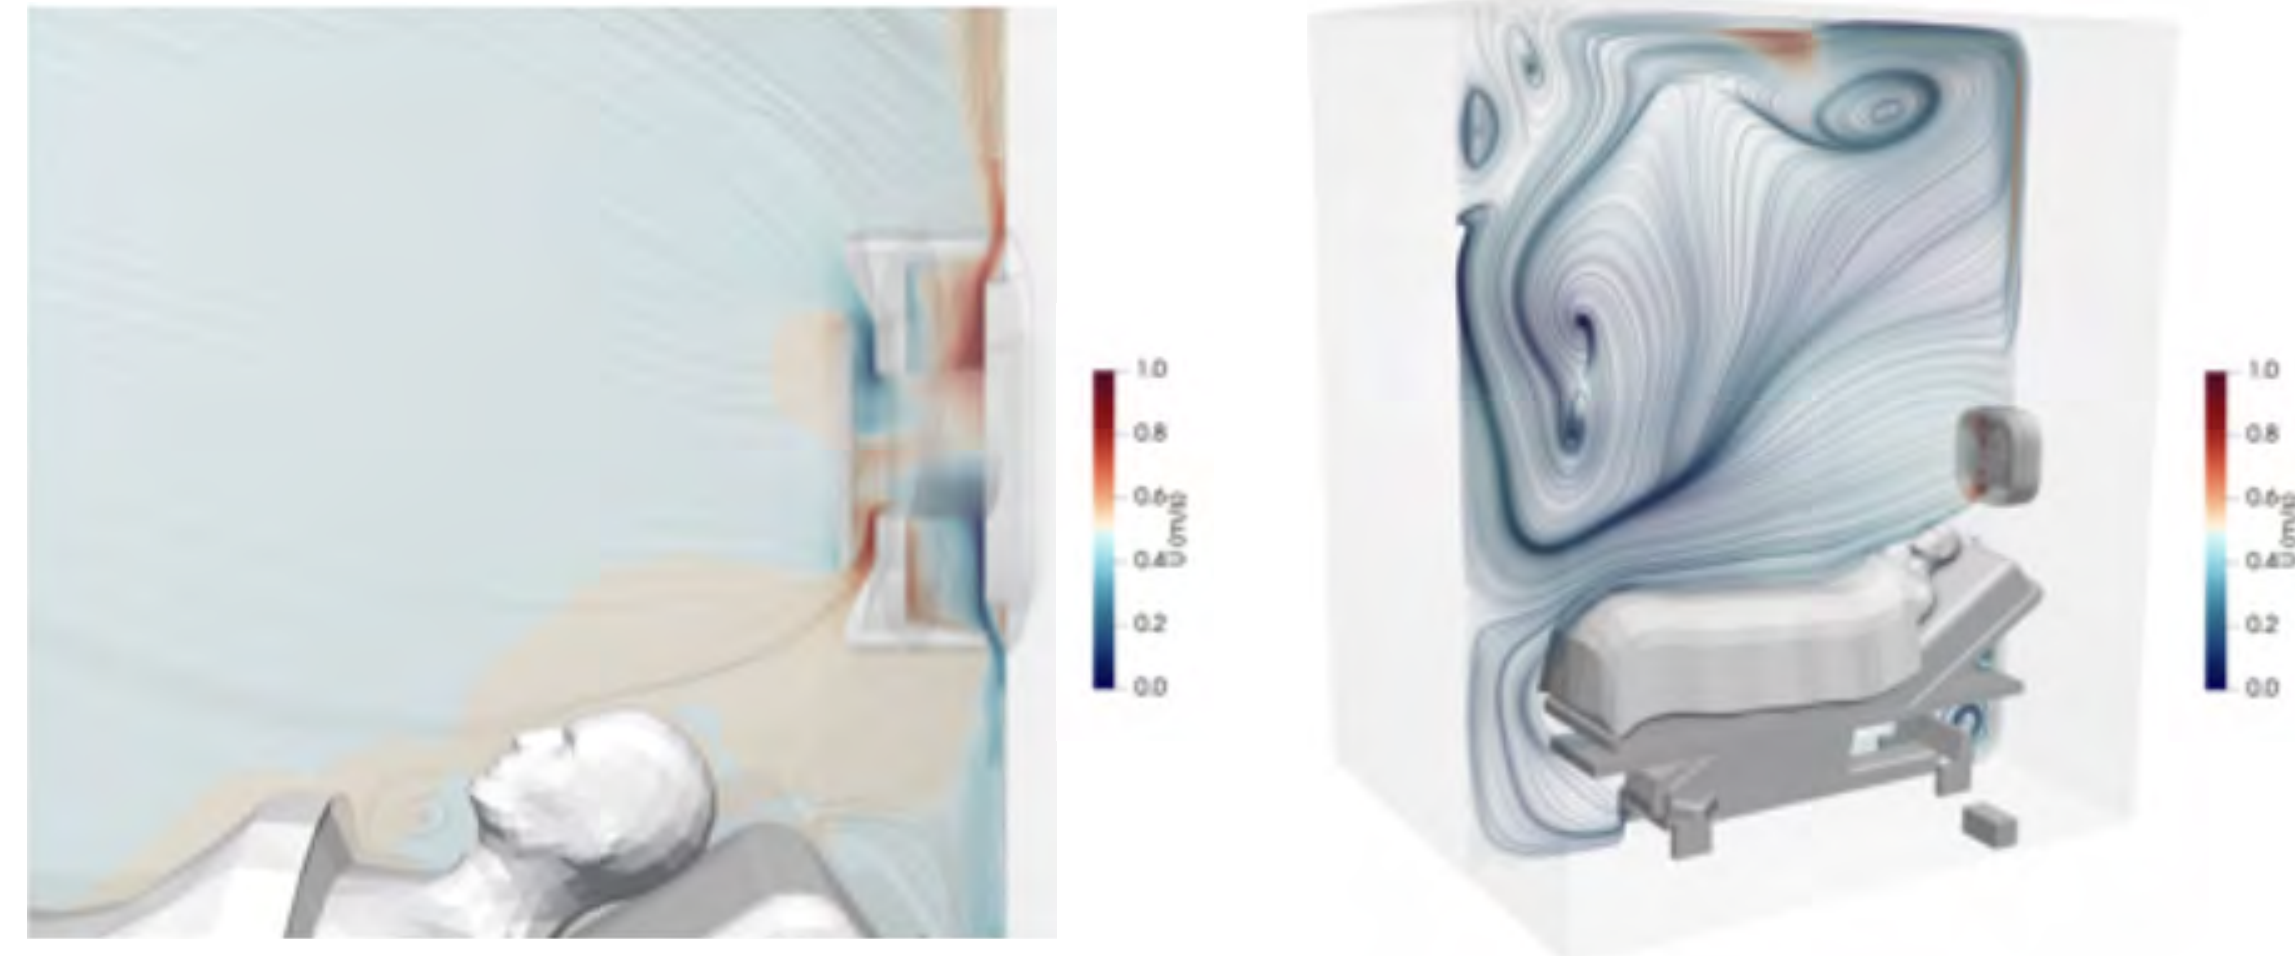

| | 15 Min | 60 Min |
|--------------|----------|---------------|
| ● Control | 2.17E+06 | 1.45E+06 |
| %Reduction | 12.19 | 41.239 |
| ● Experiment | 8.95E+06 | 4.80E+02 |
| %Reduction | 63.69 | 99.998 |

Results

Infection Prevention in Isolation Rooms

Air and particles flow and concentration in the experiment

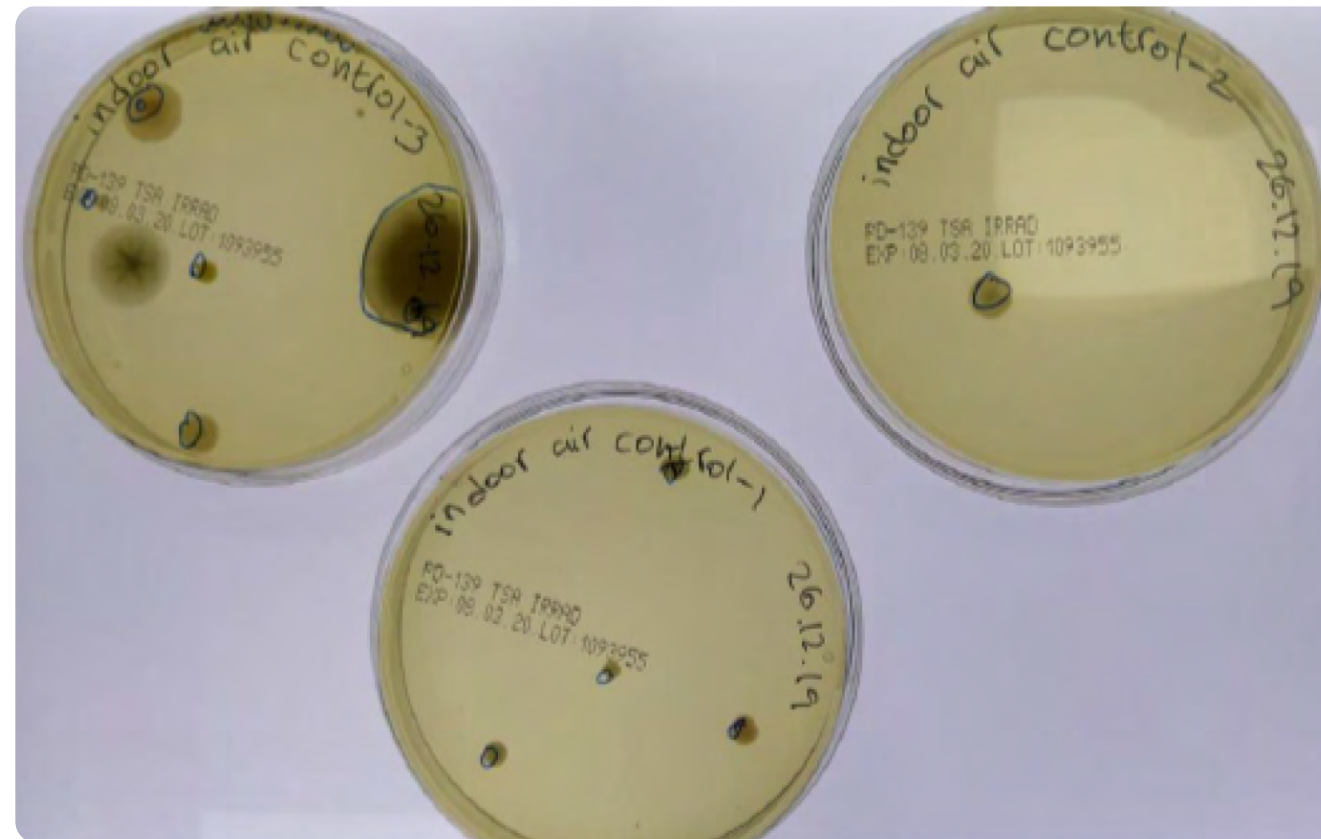

Using a laser light, smoke particles were illuminated in the room environment

Purifying Anti-Infectious Bronchitis Virus (IBV)

Incubation results

Incubation results control plates

Incubation results

Ray Filter™+ Sterionizer™+ UVc LEDs plates

Suitable Everywhere

Get an ideal fit for each space according to its size and needs.

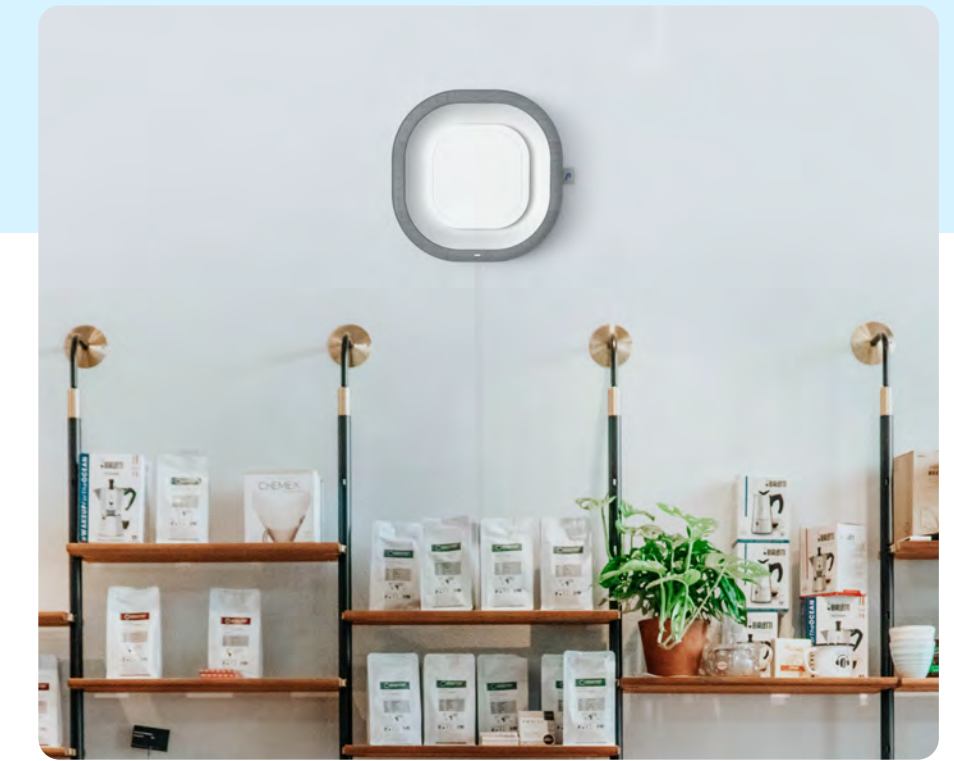

Co-working spaces

Multi-Family Residential

Educational Institutions

Commercial Property

Transportation

Nursing & Rehabilitation Homes

Hotels & Hospitality

Healthcare Centers

Enhancing Sustainability

Aura Air boosts your ESG strategy, contributes 13 points to green building standards, and reduces your carbon footprint.
