## PRODUCT CATALOG

Smart Home Climate & Air Quality Control Devices

## Our Mission:

**Perfecting indoor climate today,  
for a better climate tomorrow**

A third of the world's energy is consumed by heating and cooling indoor spaces. This contributes to CO2 emissions, climate change and poor air quality. That's why we're driven to create products that help you control your indoor climate, save energy and stay healthy. Together, we can make an impact on our planet's climate.

## Climate Comfort on a Global Scale

**Making homes more comfortable today  
to ensure our planet stays comfortable for generations**

Cold air is warming our planet. Sounds silly right? But consider this; the more we rely on CO2 emitting air conditioning technologies the faster our climate changes. And the more our climate changes the more we rely on energy consuming air conditioning to live comfortably.

## Smart AC Controllers

We have perfected indoor climate control with our two smart AC controllers. The Sensibo's Air and Sky allow users to control their AC from anywhere anytime. They will love our smart schedules, climate react function, geo-fencing and smart home integration with Google, Alexa and Siri. The Sensibo Air is compatible with Apple HomeKit.

### Sensibo Sky

### Sensibo Air

Control your AC from phone or desktop app

Keeps your home constantly comfortable

Reduce your cooling bills by up to 40%

Installs in minutes no tools required

## Smart AC Controllers

## Smart Air Purifiers

The Sensibo Pure is our smart app controlled air purifier. Equipped with a 3 layered HEPA filter the Sensibo Pure is capable of trapping and neutralizing most common household air pollution such as dust, pollen, pet dander, viruses and bacteria. It has a pollution sensing LED light that alerts you to increasing levels of pollution and activates higher fan speeds to clean your air. It is a great gadget for new parents, pet lovers and anyone looking to add an extra layer of protection to the air they breathe at home.

## Sensibo Pure

-  Medical grade filtration
-  Smart air quality sensor
-  **AUTO** Autonomous operation
-  Works with HomeKit
-  Smart LED light
-  Voice assistants
-  WiFi & BLE

## Smart Air Quality Monitors

Our homes are filled with millions of harmful microscopic pollutants. While many are harmless there are some that can cause common illnesses and minor neurological symptoms. Give your customers peace of mind by allowing them to visualize the pollution in their air.

### Sensibo Air PRO

Smart AC controller with integrated air quality sensor

- Control AC from anywhere
- 7 day smart scheduling
- Climate react
- Geofencing

### Sensibo Elements

The smart multi-sensored air quality monitoring system

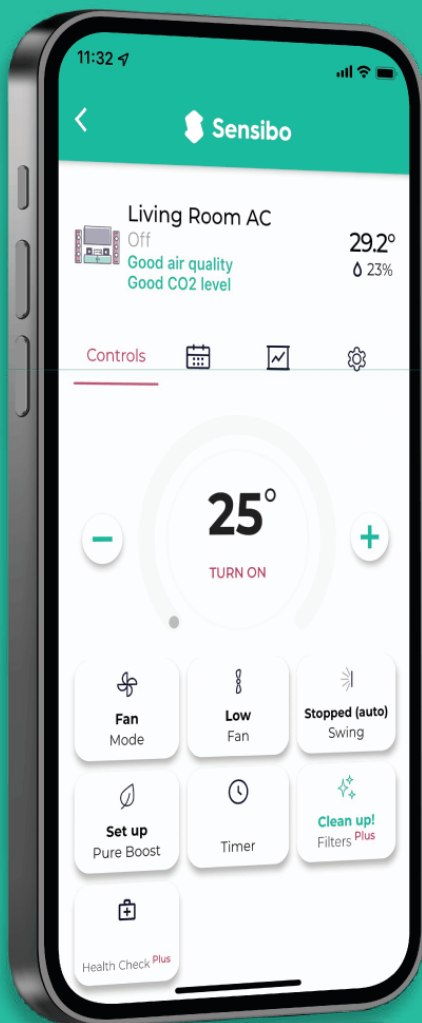

# Hit Your Margins

## No-brainer Smart Products that SELL

As a retailer or reseller you are always on the lookout for the next big thing, offering your customers Sensibo devices is a no brainer. Become a certified Sensibo retail partner and stock your shelves with our industry leading smart AC and air quality control products that your customers are sure to love.

## Thousands of Users Worldwide Love Our App

We provide our users with state of the art smart air conditioner and air purifier control from their phones. But we don't stop there. Embedded in all of our devices are advanced, cloud based, machine learning, AI algorithms that provide extra value and functionality for our users.
